

AMENDMENTS TO THE SPECIFICATION

In the Specification:

I. Objection to Title

Pursuant to the examiner's objection, the applicant's representatives have changed the title from METHOD AND SYSTEM FOR DEVELOPING SOFTWARE to METHOD AND SYSTEM FOR DEVELOPING SOFTWARE USING NODES.

In addition, please amend page 6, lines 25-27 of the specification to state,

Figure 14 is a flow chart that illustrates one embodiment of the present invention of a complete view of applications ~~and information flow~~ using the Figure 13 methodology.

Also, please amend page 17, lines 18-23 to state,

Figure 13 illustrates a methodology that facilitates rapid implementation of website solutions. The delineation of business application and rules definition from the technical details of website user interface design are uniquely enabled by this invention. Figure 14 illustrates the ~~information flow~~ diagram in the three key use models for a website designed based on the principles described by the present invention.
